interchangeable, being able to divert water from to another. All troughs, stables and firefighting tank are fed by bore water.

Additionally, there's approximately 130,000L of rainwater storage which supplies the home.

And what a lovely, cosy home this is. Being of double brick construction, she's solid and well insulated. 3 bedrooms, 2 renovated bathrooms and a large, central kitchen with gas cooktop are the beginning of the lovely features that make for a 'feel good' country home. The wood combustion heater roars in Winter and A/C + fans cool in Summer. Parquetry and timber flooring add to the warmth and complimentary white plantation shutters are on every window. The pretty living room is that perfect place to rest after a day with the animals.

Worthy to note, the house has been wired to accommodate a generator in the event that mains power is interrupted.

This truly is a beautiful property, where the long, long driveway meanders between the paddocks and lovely distant views can be enjoyed. There's a dedicated area for the dogs to keep within, and there's a huge yard for the Chickens to enjoy free ranging during the day before being locked up in the evening.

Inspection won't disappoint - now is the time to enjoy boutique farm life in an incredibly convenient location.
